Turning adversity into opportunity: the latest edition of Nexans integrated report is now available

JUL 27, 2021

Parce que notre ADN c'est l'électrification durable

Parce que notre innovation, c'est l'avenir

Parce que notre intelligence énergétique c'est déjà demain

Parce que notre performance intégrée, c'est un nouveau monde

Paris, July 27, 2021 Nexans published the latest edition of its Integrated Report, illustrating how our new purpose, "Electrify the future" and our sustainability commitments, are fully reflected in the Group's vision and strategy.

For the first time, a digital version of the report allows the readers to navigate through the 4 highlights of this edition:

- Because Electrification is in our DNA
- Because our Innovation is the future
- Because the Future is now for Nexans' energy intelligence
- Because our integrated performance is a new world.

This year's report is also the opportunity to experience life at Nexans through the eyes of our employees as part of our Living History photography contest. To further the experience, a series of videos are included to bring the Group's purpose and values to life.

Even though 2020 was a turbulent year, we successfully turned adversity into opportunity despite the unprecedented global health and economic crisis. The Group's fundamentals remains solid as Nexans moves forward in its 2024 strategic direction.

In the report, you'll read how we carry out our mission to be a key driver in the world's transition to a more connected and sustainable energy future. As we progress further into 2021, we are confident that we're on track to lead the charge toward the new world of electrification for the planet.

Christopher Guérin, CEO of Nexans commented: "For more than a century, Nexans has played a crucial role in the electrification of the world, and it will continue this way as electrification is our DNA. It is time to amplify our role by becoming a single, fully integrated player covering the entire electrification value chain. It is with full speed and enthusiasm that we open this new chapter in our history."
